

# Atefeh Hajebi (She/Her)

UX/UI Designer

Enthusiastic and detail-oriented **UX/UI Designer** with a strong foundation in user research, interaction design, and accessibility. Over 12 years of cross-functional experience in engineering, design, and customer experience, enabling a deep understanding of both business and user needs. Skilled in creating user-centred solutions through data-driven research and iterative design. Proficient in leveraging AI-powered tools such as ChatGPT, Gemini, and GitHub Copilot to enhance ideation, research, and workflow efficiency. Actively exploring emerging tools like Notion AI and Uizard to stay updated with the latest UX/UI design trends. Passionate about delivering inclusive, visually engaging, and impactful digital experiences for web and mobile platforms.
